Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Applicant's representative, Mr. Noel Gillespie (Reg. No. 47,596), on September 22, 2009.

3. The application has been amended as follow:

4. In the claim:

5. Claims 1 and 20 are amended as following:

1. (Currently Amended) A method of communicating, comprising:

a client device generating a data message comprising textual content intended to be received by one or more mobile devices;

the client device transmitting the data message to a message authority;

a message authority receiving the data message, associating an identifier associated with a mobile device with one of a plurality of intermediate addresses associated with the message authority, including or appending the intermediate address to the data message, and forwarding the data message to the mobile device;

the mobile device receiving the data message and displaying the textual content, without the need for the mobile device to initiate a connection with the message authority to collect the data message;

the mobile device causing a voice reply to the data message to be generated by speaking into the mobile device using a transmit action, wherein generating the voice reply comprises initiating a native voice call from the mobile device to the intermediate address associated with the message authority only, and to no other address;

the mobile device associating the voice reply with the identifier that identifies the mobile device;

the mobile device transmitting the voice reply to the message authority via the native voice call; and

the message authority, determining a destination address for the voice reply by reference to a combination of the mobile device identifier and the intermediate address;

the message authority, converting spoken reply to a voice message and relaying the voice message to the determined destination address.

20. (Cancelled).

Reasons for Allowance

6. Claims 1-15 and 21 are allowed.

7. This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104 (e). In this case, the substance of applicant's remark

filed on September 15, 2009 with respect to arguments that point out and make clear the reason claims are patentable over the prior art of record. Thus, the reason for allowance is in all probability evident from the record and no statement for examiner's reason for allowance is necessary (see MPEP 13202.14).

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thu Ha Nguyen, whose telephone number is (571) 272-3989. The examiner can normally be reached Monday through Friday from 8:00 AM to 6:00 PM.
